

FORWARDED

Forward the Spring Work Now.
Take time by the forelock, it is as good a maxim for farmers as for others; while there are some kinds of labor that can only be performed at particular seasons, there are others that can be done at any time, when the weather favors out door operations. The spring in all northern part of our country is a very brief season, and upon the farm, it is usually over crowded with work. Slack farmers especially, leave every thing to this season. The manure is not carted until the ground is settled; the ploughing is put off until May, and the planting until June; the potatoes and oats that flourish best in cool weather, are forced to mature in the heat of dogdays and rot, rust and smut, are often the result of the late sowing and planting.

Something can be done even at this season to help on the spring work. The wood house is, or ought to be already filled so that the axe will not need to be lifted to prepare fuel from March to December. A good part of the manure can be carted now, much better than in planting time. The ground is now frozen so that the cart path to the field to be ploughed, is soon worn as smooth as a railroad. It will be a much less tax upon the strength of a team to draw a hundred loads of manure now than to do it in April, when the team is pressed with ploughing and other farm work. It is pretty well established now, that yard manure prepared in the usual way with muck and loam, does not lose much of its value, when piled up in Winter in large heaps in the field where it is used. From our own experience we do not think green stable manure would be injured by the same treatment, if it were well mixed in the field with muck or peat. The piles should be made long, narrow and high, say five or six feet so as to shed a part of the rain.

If any of the meadows are to be dressed with fine compost, there is no better time than the present to do it. The sward will not be cut up and the warm Spring rains will carry down the fertilizing properties of the roots of plants. This must not be done however, on rolling land, or on steep hill sides where the rains would wash off part of the manure before the frost comes out of the ground.

A large portion of the Spring work can be anticipated before Winter breaks up, and then the farmer can seize upon the best to plant and sow, and drive his work all through the season instead of being driven.—*American Agriculturist.*

THE FARM.

This is the season for the thought crop — The seed may be obtained from the past years experience of yourself and others, and books and papers will furnish a still wider choice. New thoughts are both capital and tools.— *Thinking men commands success.* Let the home department receive due attention. Settle outstanding accounts, and as far as practicable, start square with the year. Improve the farm on paper. Lay drains and build walls with pen and ink, plant fields with pen and ruler. Get the whole farm and its future operations by heart, and thus become ready for the coming campaign. Then enlarge good farming into good "neighboring." Start the farmer's club, urge forward neighborhood improvements, better roads, superior school-houses, and whatever the public need. These labors will fill the leisure of Winter pleasantly and with profit.—*Id.*

A Good Farmer.

In looking over some recent remarks by the Hon. Z. Pratt, on taking the chair at the formation of the Prattville Farmer's Club, we find the following suggestive paragraph: "A good farmer in a neighborhood is a great blessing; and let him go to what Mill or Meeting he likes, his mode of farming and his improvements will be adopted."

This is very true, and it is encouraging to every one who is trying to bring about a better husbandry on his farm and among those who are, and are to be, his neighbors and companions. Whatever may be a man's political opinions or his personal preferences, if his example be good, if he show on his farm, better tillage, better crops, better animals, and better profits, his methods will be looked into by those who know him, and he will be imitated; and thus improvement will go on.

Salted Water for Sheep.—The New York Tribune gives the following experiment: 100 sheep was fed regularly 187 lbs. of hay and 175 lbs of straw per day. This was replaced by 110 lbs of hay and the same of cut straw the sheep being watered over night with 33 gallons of water, in which 1 1/2 lbs of sea salt had been dissolved. Notwithstanding this reduction in the amount of their food, the sheep remained in as good condition as they were before.—*Genesee Farmer.*

Plaster.—The late Jesse Duell, in the Cultivator for 1837, said:

"It is generally conceded, that upon porous and dry soils, plaster does benefit clover, corn, potatoes, peas, and generally all plants having broad and succulent leaves. But it is a matter of doubt, at least in our minds, whether its application is directly beneficial to timothy, wheat, rye, or barley. Subsequent experience, we think, confirms these opinions. *Genesee Farmer.*

February is the old established month for pruning fruit trees, and especially the grape. To give any precise directions for this operation is next to impossible; every one having his own views about it.

DR. MORSE'S INDIAN ROOT PILLS.

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted, and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing out the stagnant impurities, the blood will become choked and cease to act, and thus our light of life will forever be blown out. It is important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's Garden, for the health and recovery of the lungs; and that we should keep these Pills are made in a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a astringent which is an Expectant, that opens and regulates the passage to the lungs; and the third is a cathartic, which performs its duty in throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives double force and strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out naturally by the urinary or water passages, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not take a medicine which will pass to the affected parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing a disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who are bed-ridden or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for the use of a medicine which will pass to the affected parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing a disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Yes, thousands who are bed-ridden or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for the use of a medicine which will pass to the affected parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing a disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory, by restoring millions of the sick to blooming health and happiness.
